

# Multi Purpose - Concentrate - 10X Formulated

## Application

Dilute one part L2104C to 9 parts water and use the resultant solution for the following applications:

Carpet and fabric care (odor and stain removal of milk, vomit, urine, feces, blood, coffee, wine, etc..).

Trap and drain maintenance for grease and odor control.

Waste degrader for septic tanks, wastewater systems composting (ponds, lagoons, etc.).

Bathroom maintenance (surface cleaning and odor control) on fixtures and floor drains.

Drain line treatment.

Laundry pre-spot and pre-soak applications.

Odor control in garbage pails, dumpsters, garbage truck, landfill and municipal sludge.

*Starches, Carbohydrates, Tissue*

*Fats, Oils, and Grease*

## Storage and Handling

Recommended Storage: Store in cool, dry conditions. Storage temperature should be between 41 degrees F and 104 degrees F (5 C and 40 C).

Precautions on Handling: No danger from handling packaged material. Ensure packaged containers remain sealed.

## Biological Hazard Data

Microbial Formulation: The product contains a range of naturally occurring microorganisms which are known to be non-pathogenic to humans or animals.

Other: This product has been shown to be free of Salmonella and Shigella using the procedures outlined by AOAC and the USDA.

# Multi Purpose - Concentrate - 10X Formulated

## Product Description

L2104C is specially formulated and packaged for the digestion of starches, carbohydrates, tissue, fats, grease, and oils for a wide variety of applications.

To assure optimal performance of these organisms, under the toughest conditions, they are produced and blended together with "high potency" nutrients, stimulants and surfactants.

L2104C contains microorganisms that are capable of degrading a wide range of oils, greases, starches and carbohydrates under aerobic, facultative, anaerobic conditions combined with natural biological enhancers, micronutrients and macronutrients.

When applied on a regular basis, L2104C reduces the accumulation of grease in sumps, drains and traps. By degrading the grease, other solids are free to flow through the system.

L2104C is formulated with odor control ingredients for fast action

## Specifications

Form:	Free-flowing liquid
Color:	White
Fragrance:	Natron
Nutrient Content:	Surfactants, Micronutrients, Biological Enhancers
Plate Count:	1 trillion per gallon 3750 x 10 <sup>9</sup> cfu per gallon

## Benefits of L2104C:

- Useful for many applications
- Odor and stain remover
- Reduce grease build-up headaches
- Prevent emergency blockages
- Save on line jetting
- Lower grease disposal costs
- Odor control for garbage pails and trucks

## Packaging

Packaged to suit customer needs and for ease in use. Quart, Gallon, 5 gallon, 30 gallon or 55 gallon drum.

## Steps to be taken if material is released or spilled

Wear eye and skin protection. Avoid discharge to natural waters. Small spillages can be washed away with large amounts of water. Large spillages, if contained, can be returned to container.

## Waste Disposal Method

For disposal of aqueous surfactant solutions: Aerobic biological effective in treating aqueous solutions of surfactants. Removal efficiency will depend upon treatment plant conditions. As with any wastewater, consultation with local treatment plant staff is recommended (and may be required by law) before disposal. In typical activated sludge treatment systems, inlet concentrations below 50 mg/l have been treated without foaming problems.

## For Disposal of Neat, Unused Product

Incinerate in furnace where permitted under Federal, State and local regulation.

## Caution

Aquatic Effects:

48 hr. "Daphnia magna" LC50 - 428

Bacterial test LC50 - >5000 mg/L

96 hr. Fathead Minnow Lc50 - 154 mg/L
