John Carroll
Vice President
Reliable Solutions, Inc.
524 Morse Avenue
Schaumburg, IL 60193

Dear John:

I am pleased to inform you that Green Seal has evaluated three Reliable Solutions concentrated formulations. Green Seal has verified that the concentrated formulations, if diluted and packaged for use as listed below, would allow the formulated product to meet all the environmental and performance requirements of the Green Seal Environmental Standard for General-Purpose, Bathroom, Glass, and Carpet Cleaners Used for Industrial and Institutional Purposes (GS-37) or the Green Seal Environmental Standard for Floor Care Products: Finishes and Compatible Strippers Used for Industrial and Institutional Purposes (GS-40). Products based on these formulations with modifications may also meet this standard, but they would have to be evaluated on a case-by-case basis.

Product Name	Conditions for Compliance with the Standard	Green Seal Standard
Reliable EPC-1 Environmentally Preferred Floor Finish Concentrate	Concentrate provided at 36% solids, when diluted to 20% solids (i.e., 47 gallons of water added to a 55 gal drum of concentrate).	GS-40
Reliable EPC-2 Environmentally Preferred Floor Cleaner Concentrate	Concentrate to be diluted 1:6 with water, with instructions for user dilution at 1:64 (2 oz per gallon).	GS-37
Reliable EPC-4 Environmentally Preferred Floor Stripper Concentrate	Concentrate to be diluted 50:50 with water (i.e., 55 gal. of concentrate plus 55 gal. water), with instructions for user dilution at 1:5 (25 oz per gallon).	GS-40

As previously discussed and agreed, this letter of verification may be shown to Reliable Solutions customers, potential customers, and regulatory officials, but it is not to be construed as a certification by Green Seal, and hence neither the Green Seal Certification Mark nor the Green Seal name may be used in promotion or advertising with respect to the verified claim or any other claim.

We look forward to continuing this relationship.

Sincerely,

Mark T. Petruzzi
Vice President of Certification
